

As Sinclair Broadcasting is given free use of the public's airwaves, I am very distressed to hear of Sinclair Broadcasting's management order to their stations, to air an obvious anti- John Kerry "hit-piece". This is clearly contrary to the public's interest, unless they also air following, and at the same time, a anti-Bush hit-piece of similar content and length, OR an easily available, positive and truthful piece such as "Going Upriver". This would present a "fair and balanced" picture to the Public, who indeed owns the airways and demands truthfulness in broadcasting.
